

Monthly Precipitation (mm) by Year

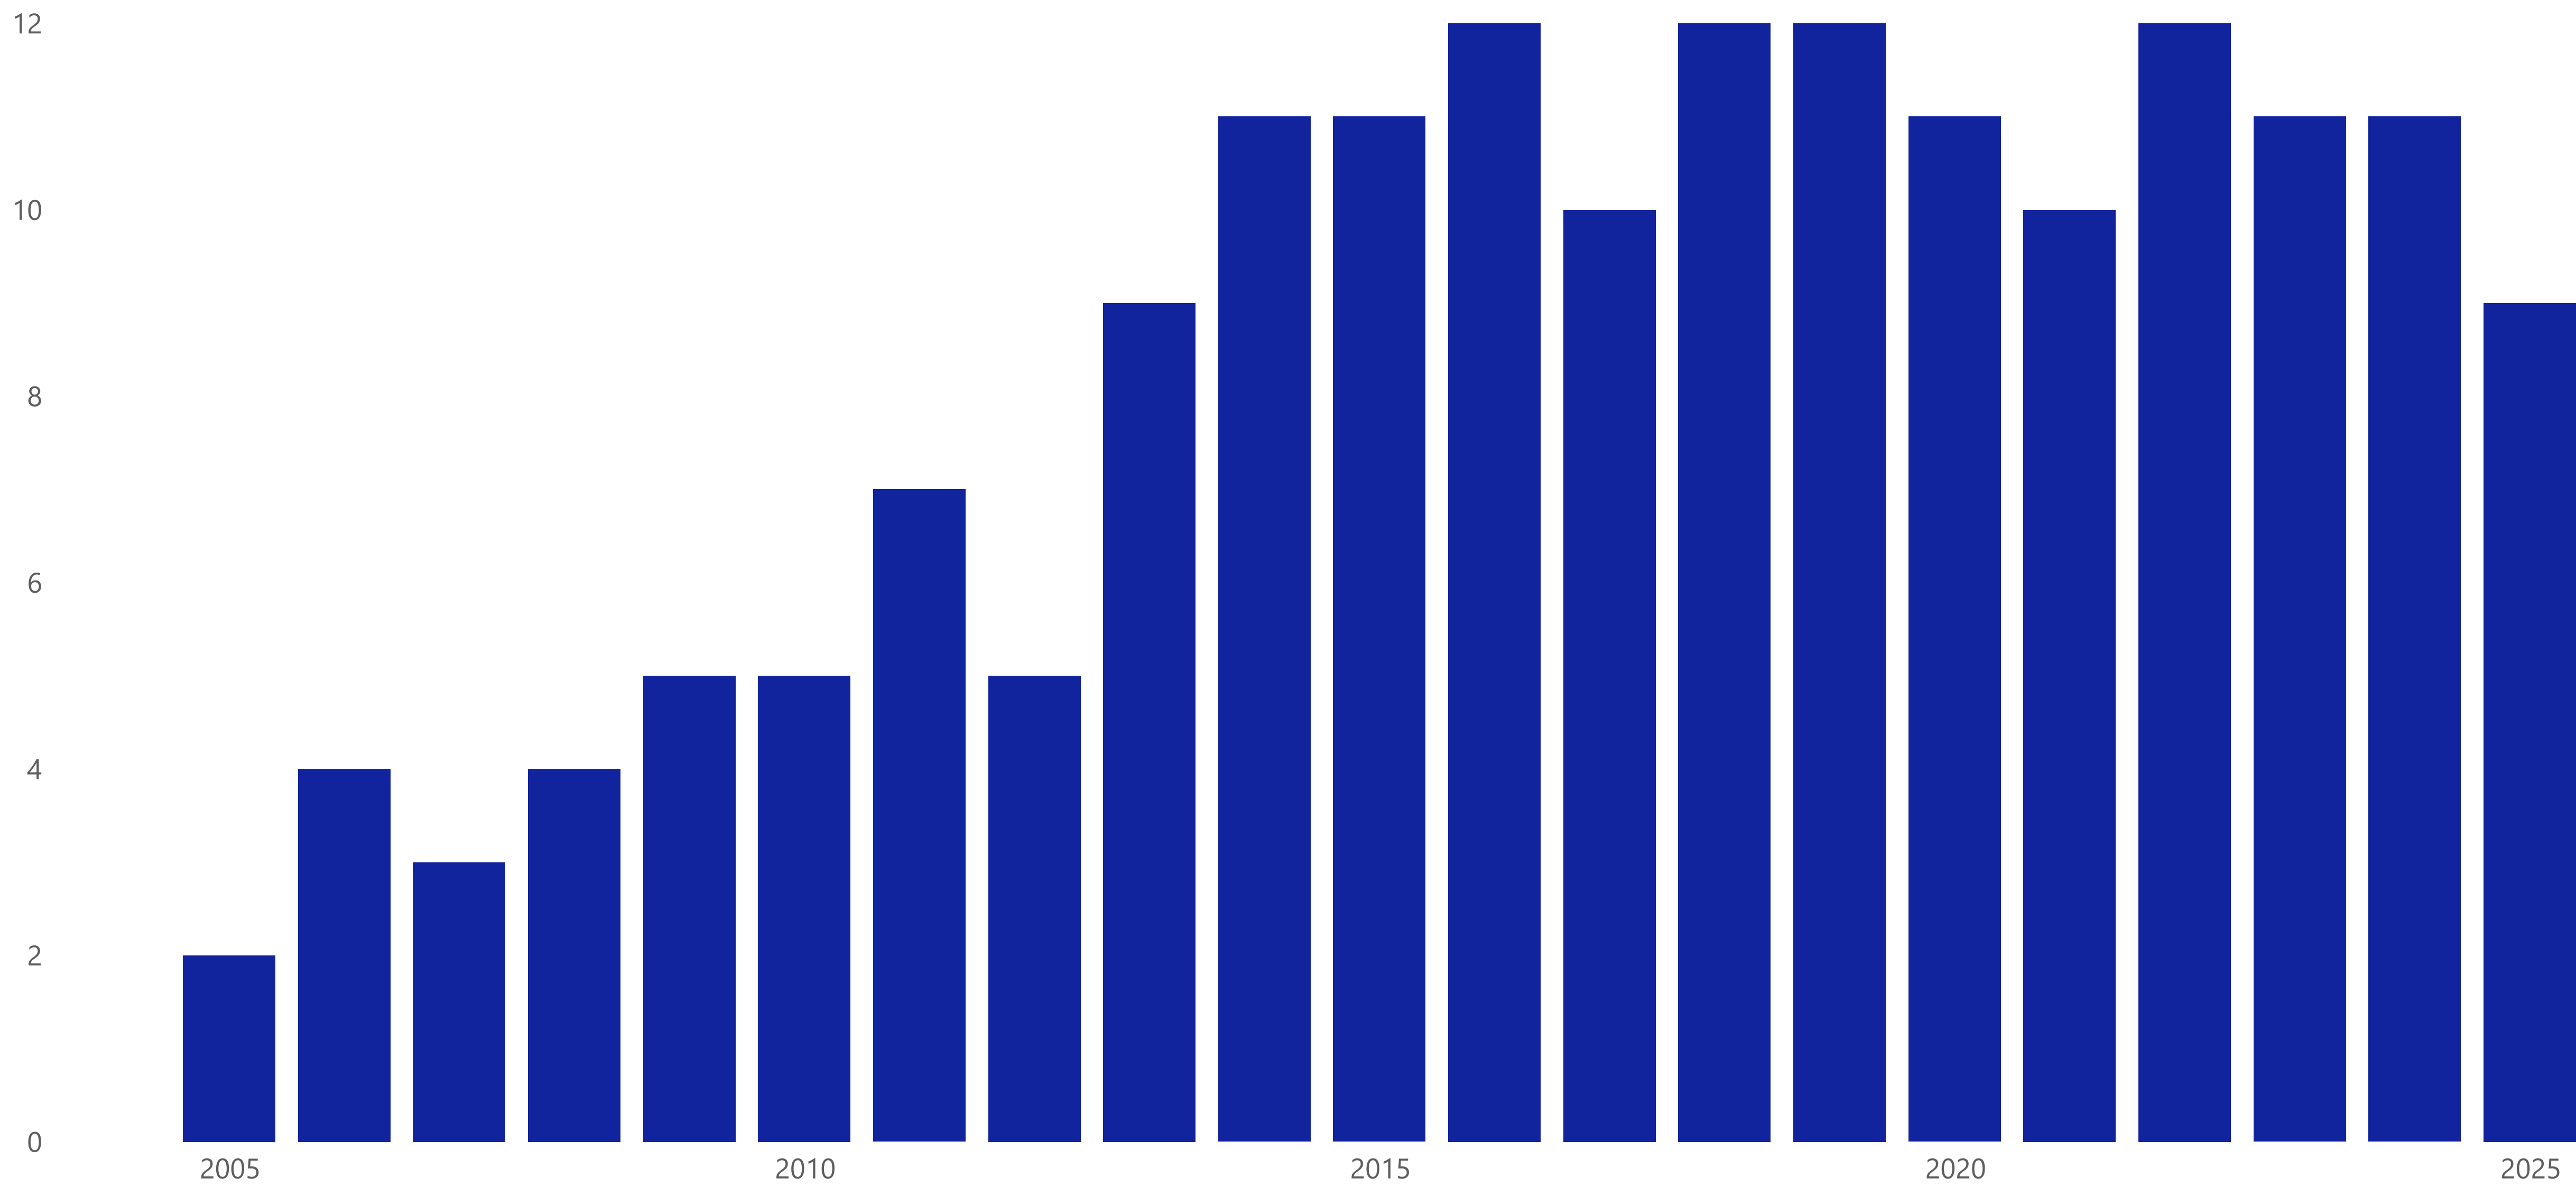

Long-Term Avg Monthly Precipitation (mm) by MonthName

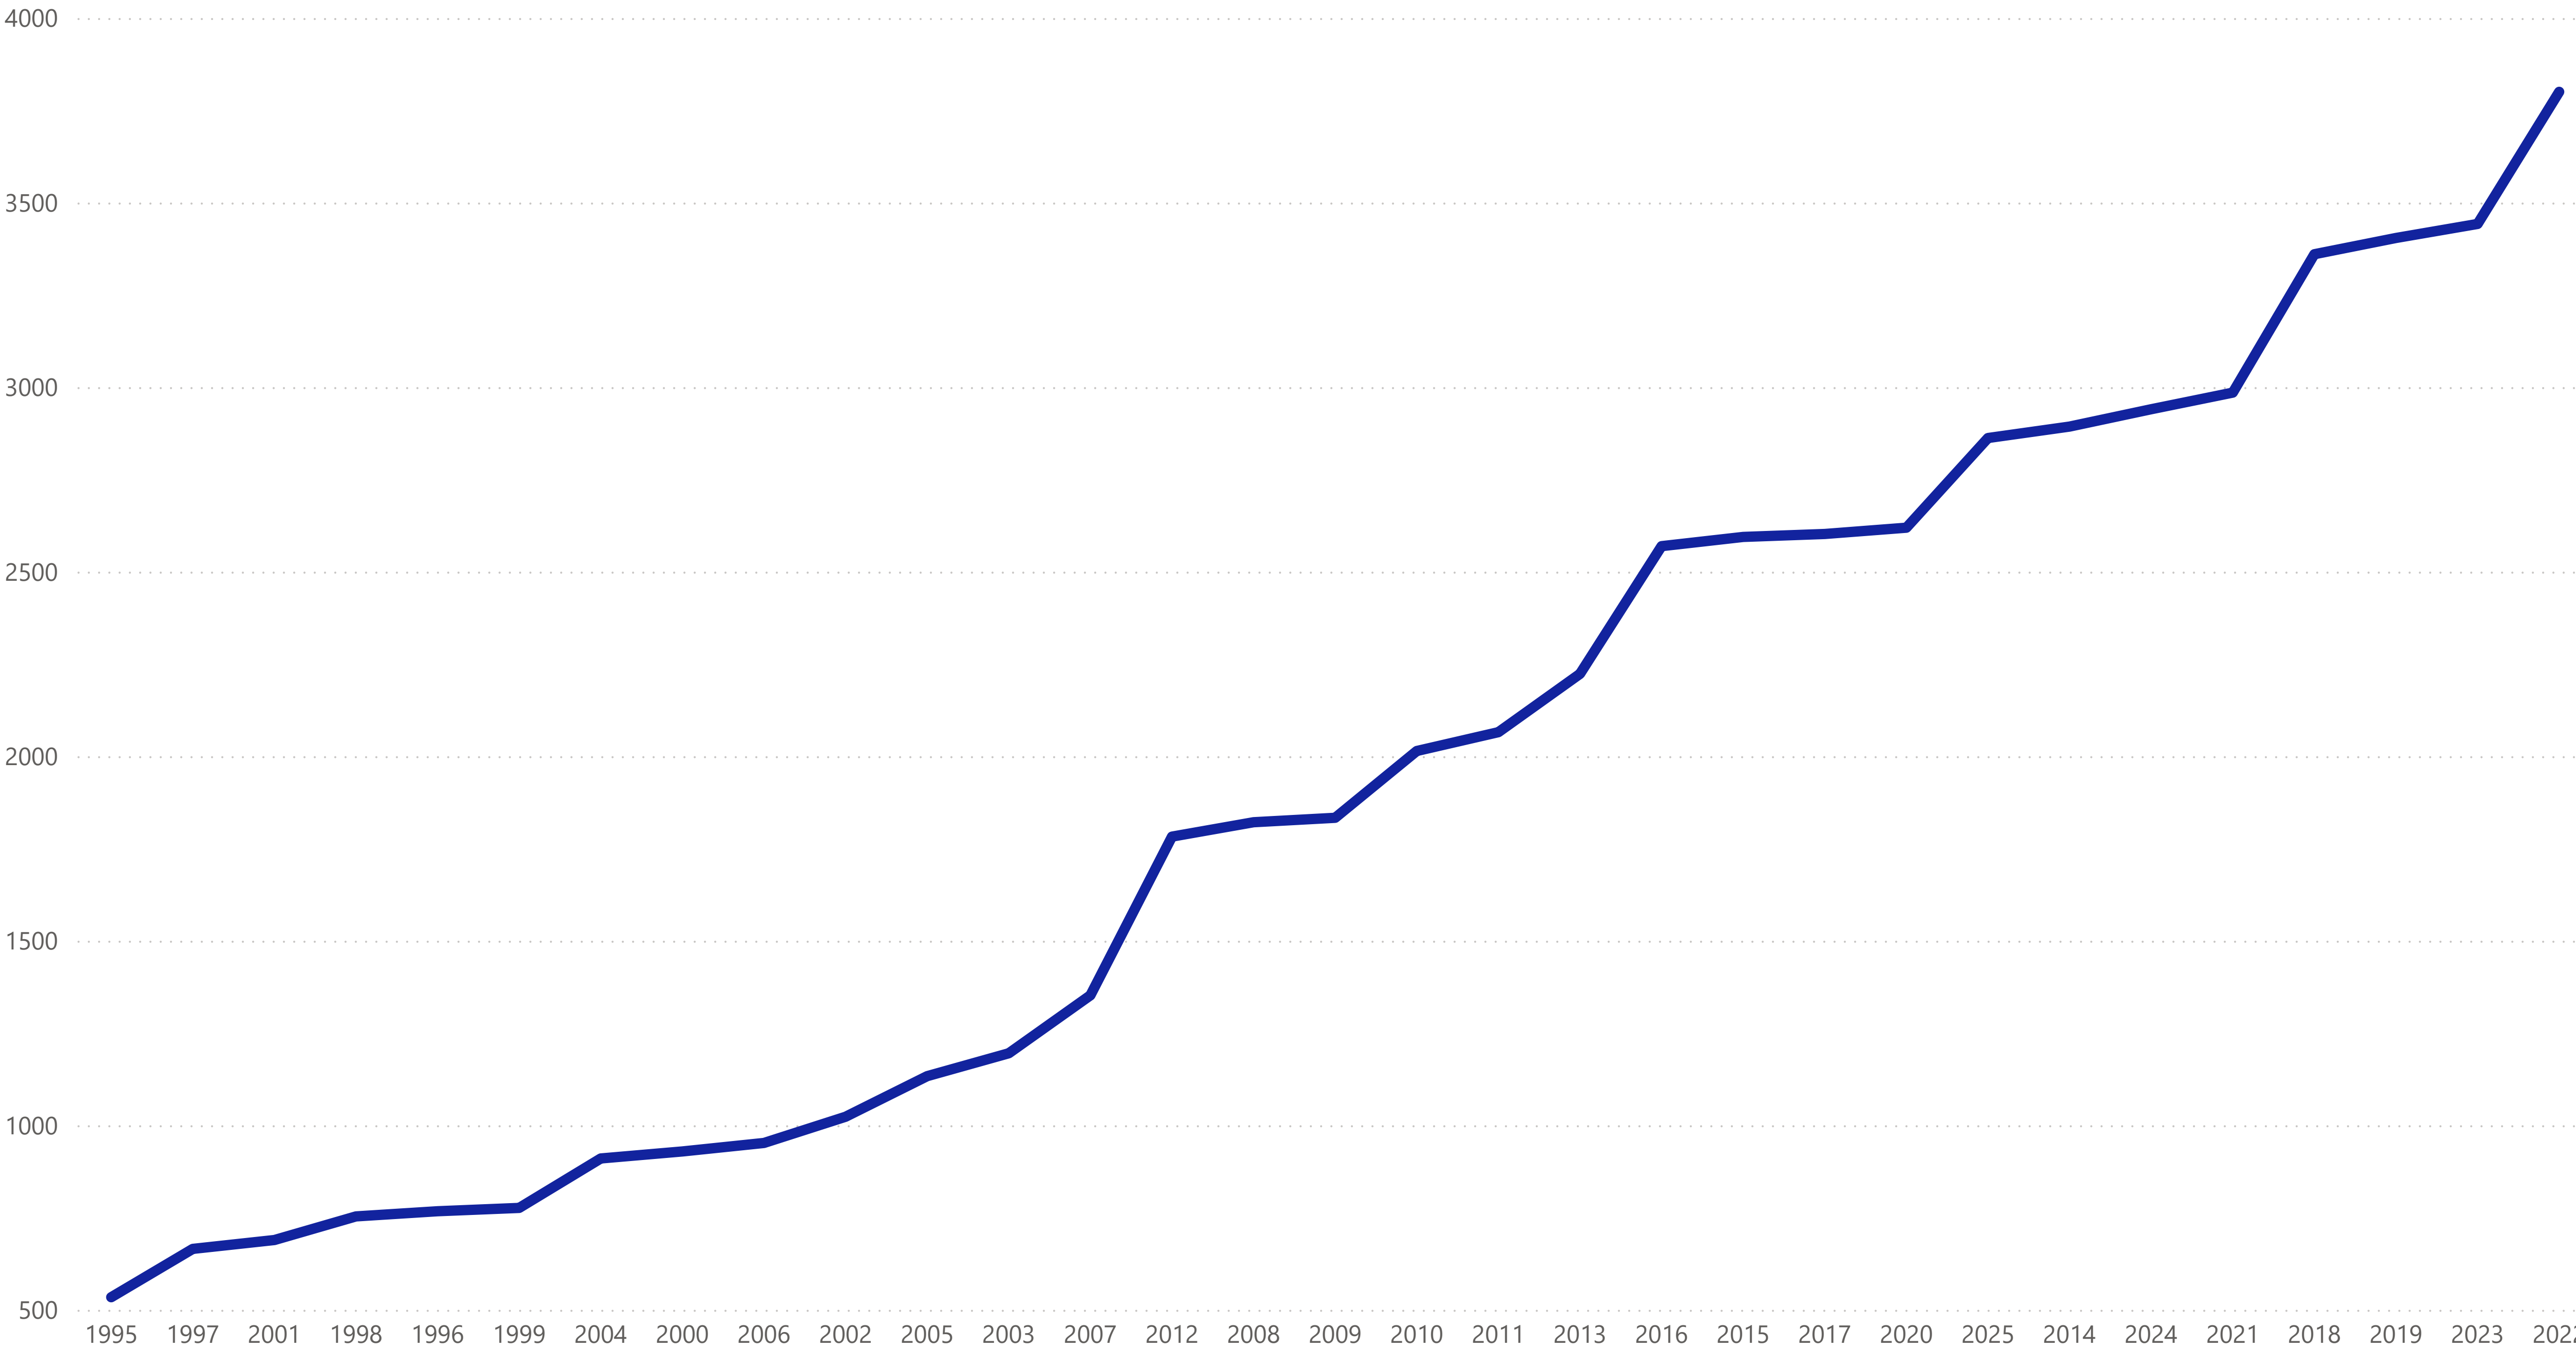

Findings 1 — Wet Months per Year — Precipitation Frequency (Atlantic Canada)

Frequency of Wet Months Over Time

A wet month is defined as a month with precipitation above the long-term monthly average across Atlantic Canada. Bars show how many such months occur each year.

Annual Frequency of Extreme Events

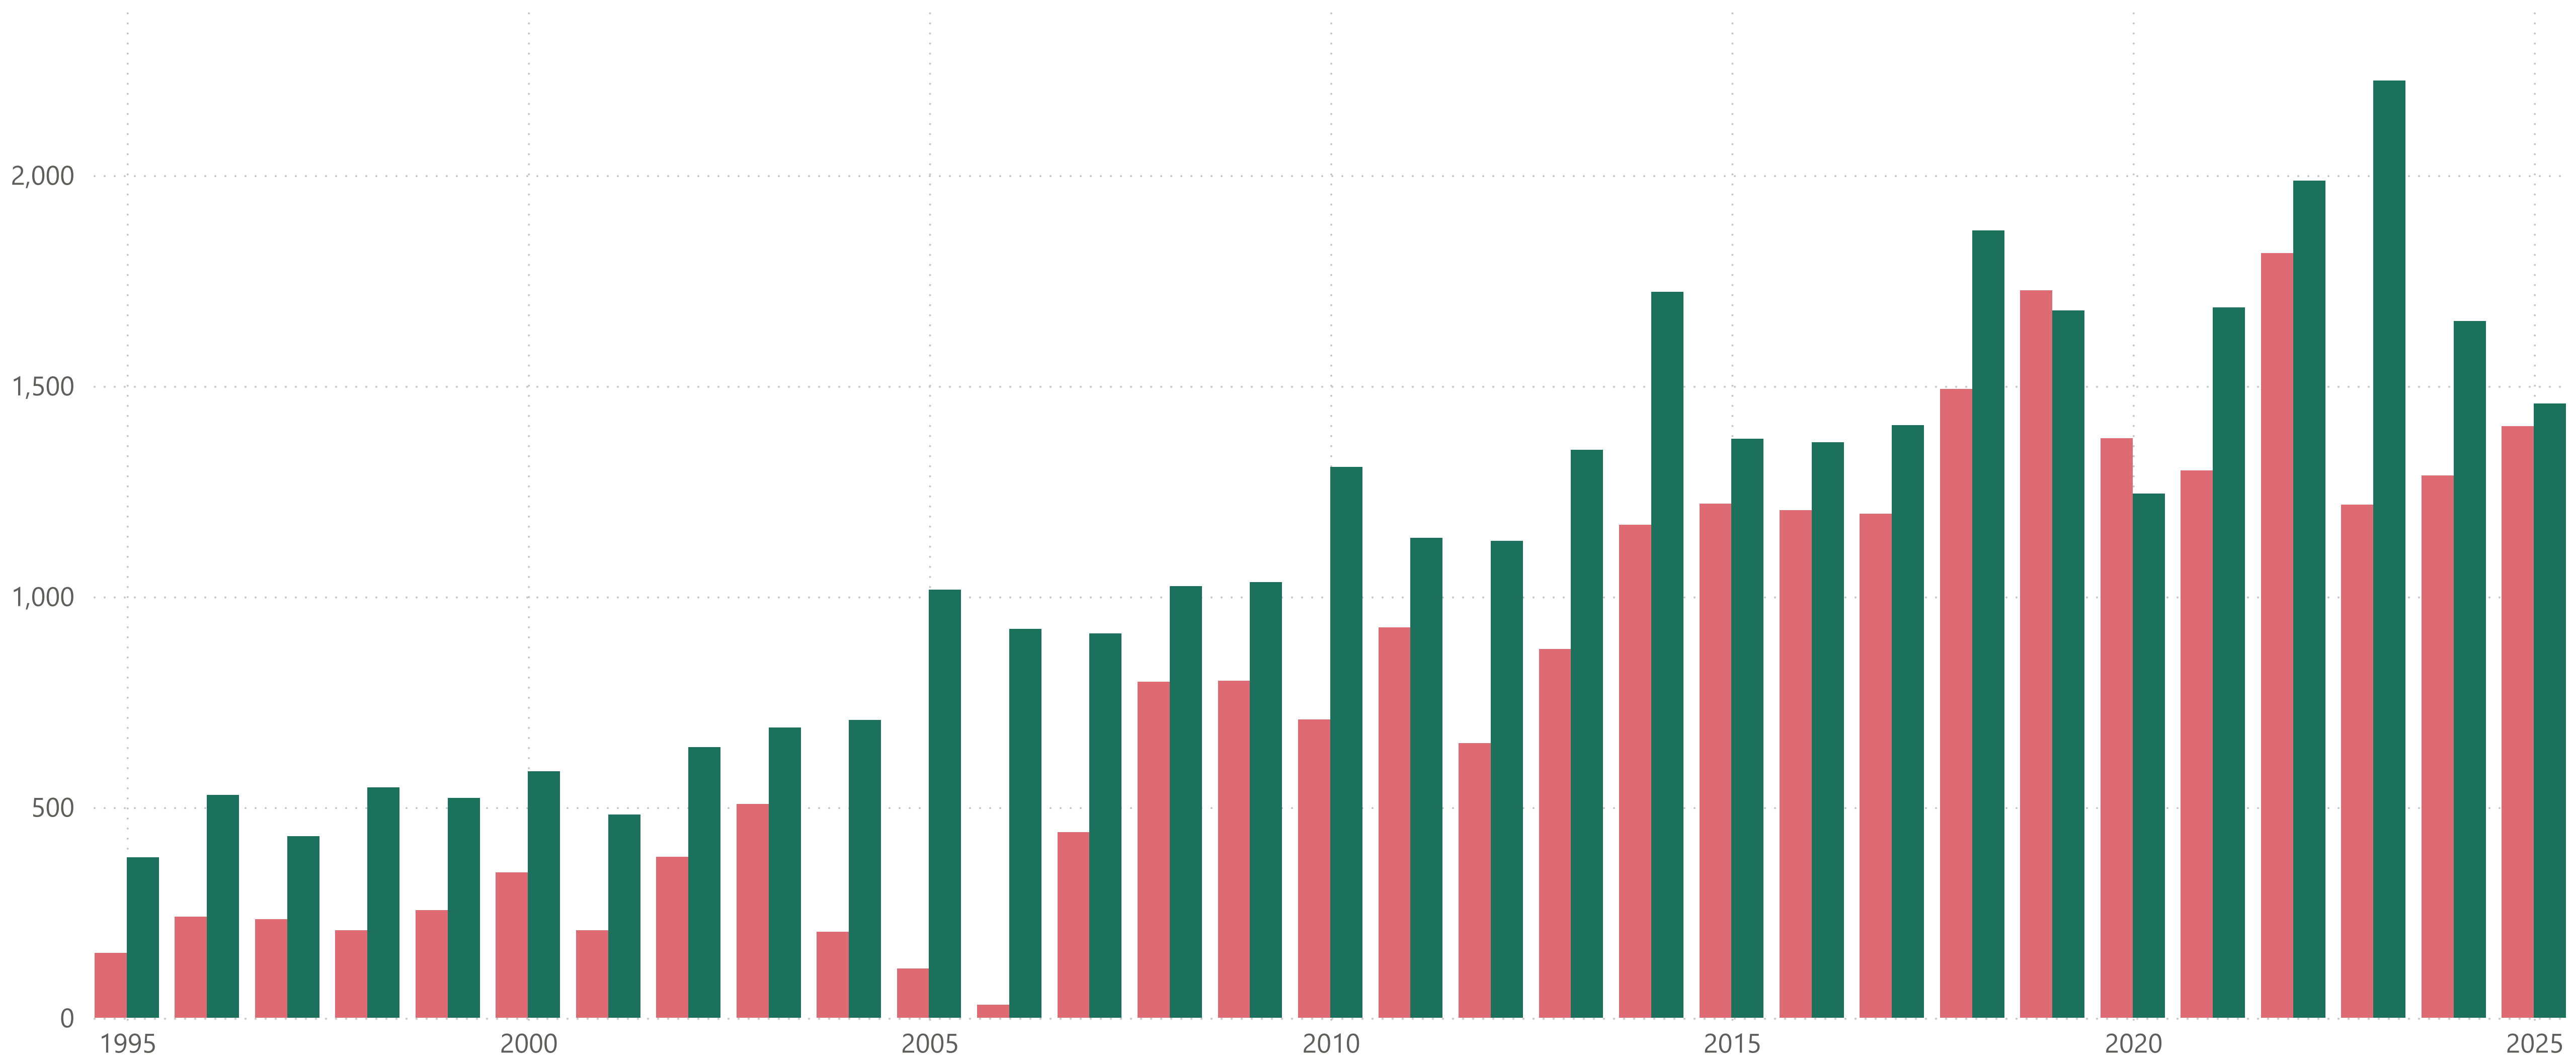

Findings 2 — Extreme Events Frequency (Atlantic Canada)

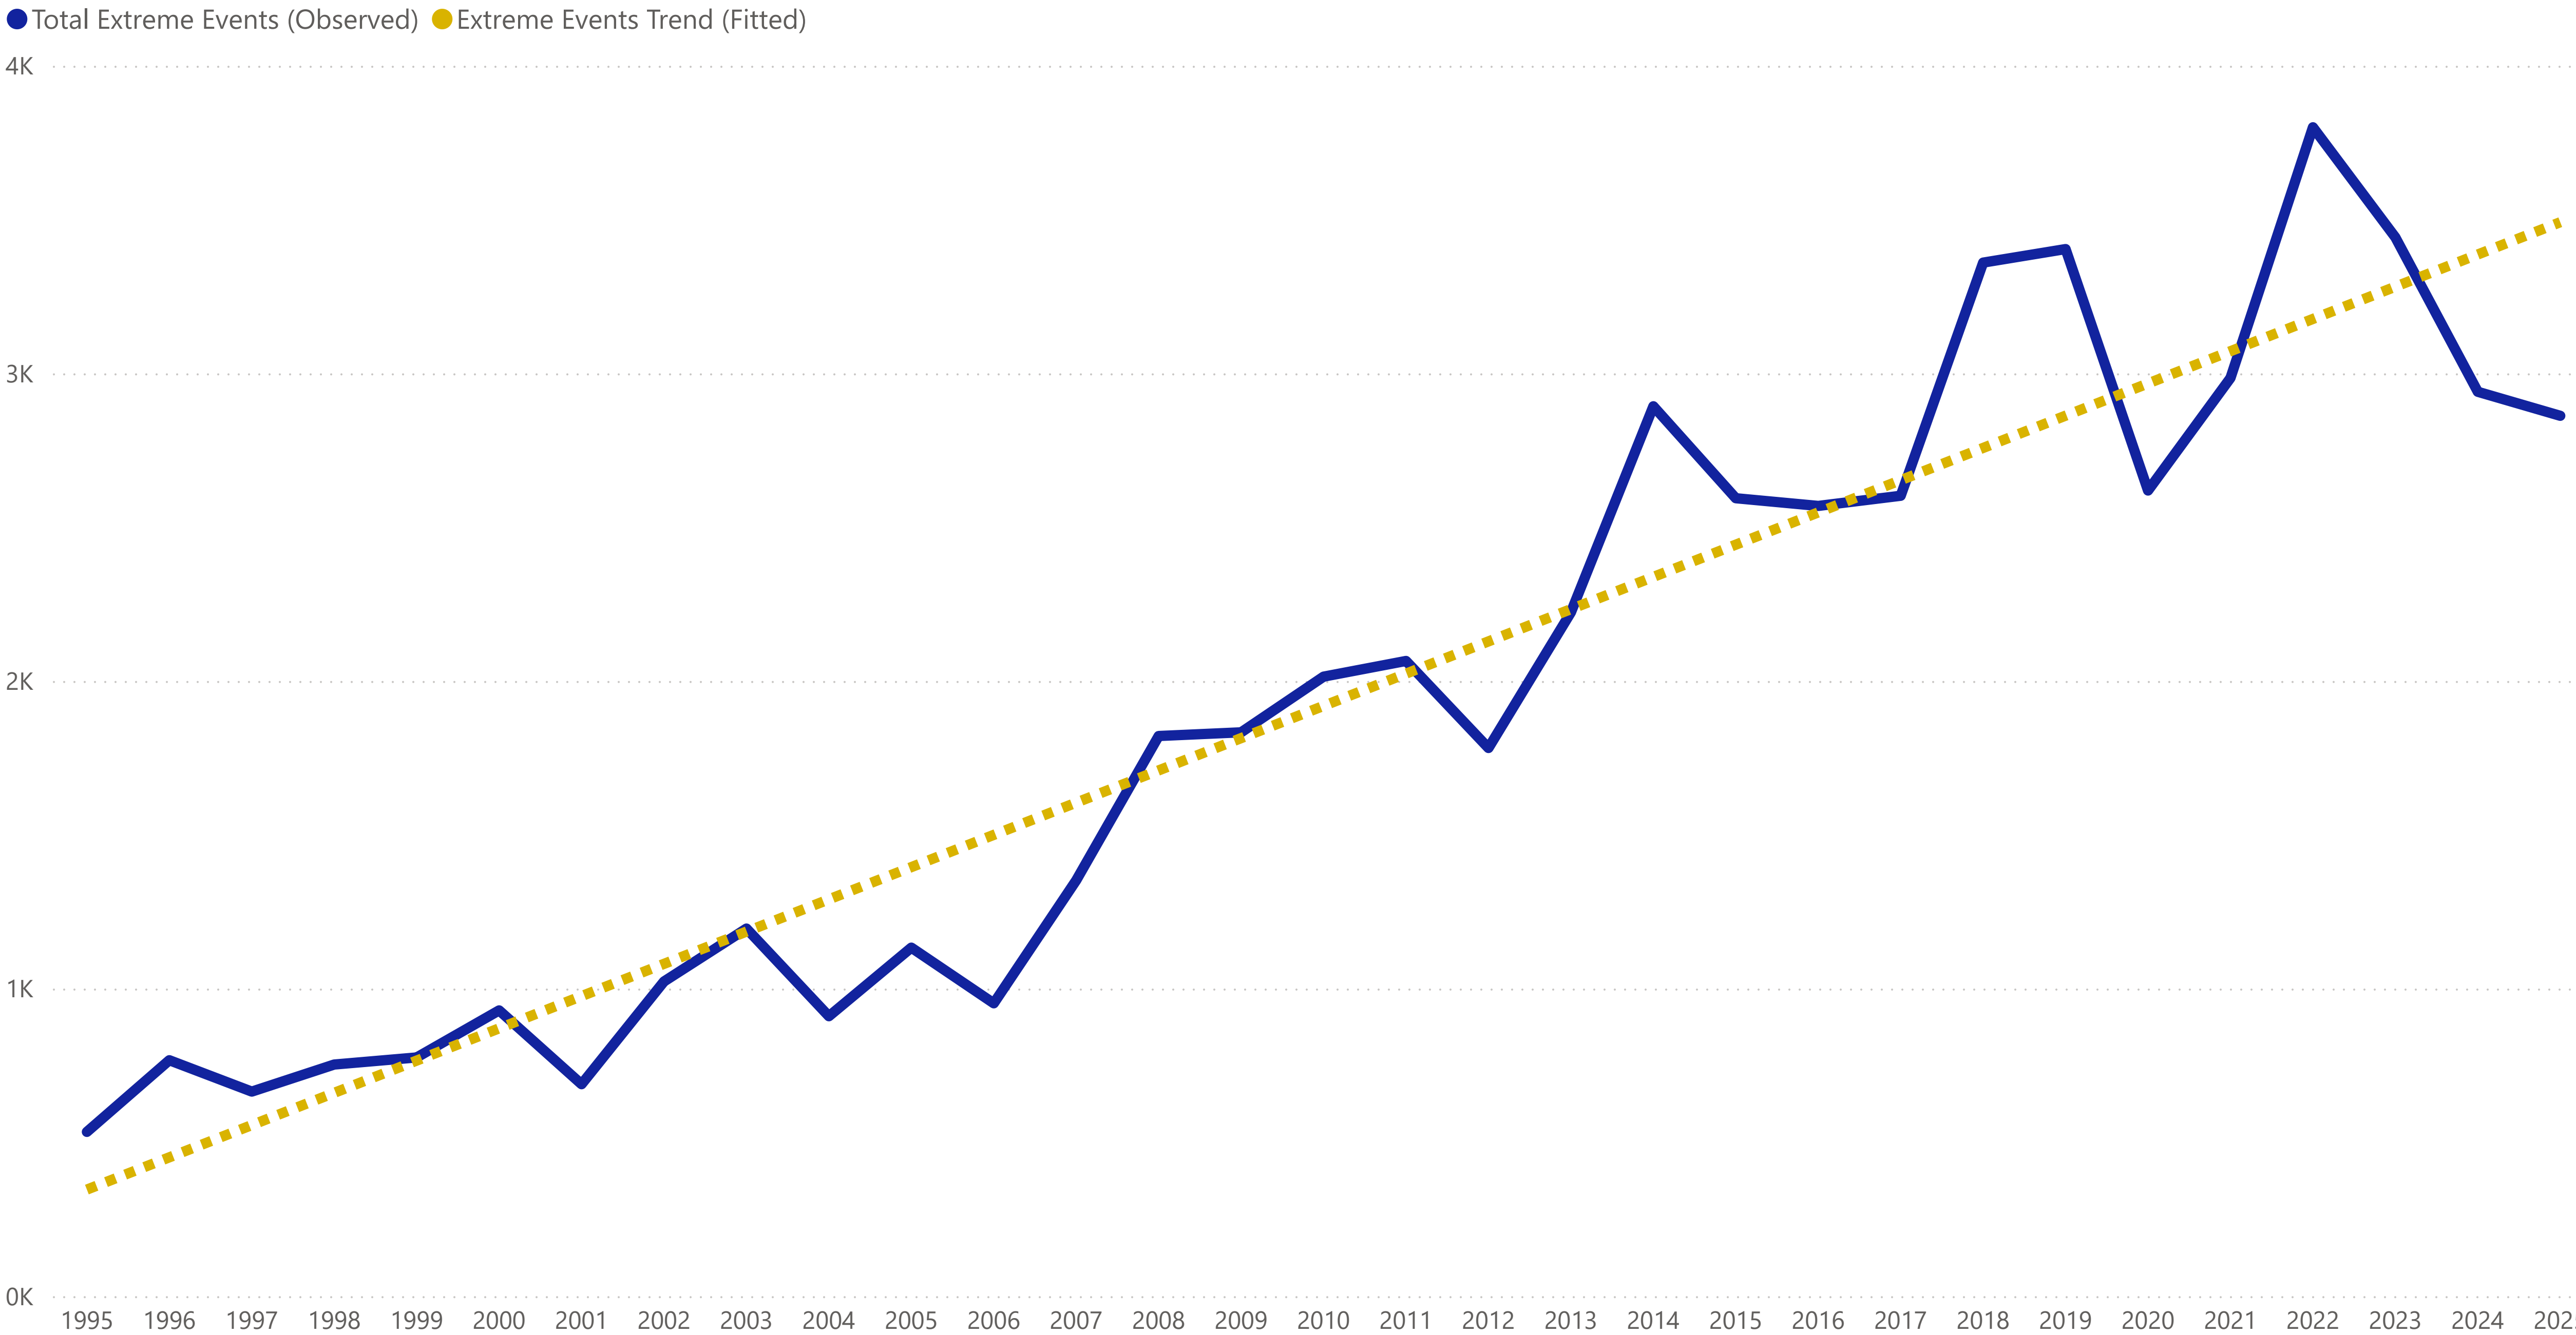

Extreme Weather Events Frequency Over Time (Atlantic Canada)

Extreme events are identified using station-specific 95th percentile thresholds for wind speed and precipitation. Values represent annual event counts.
