

Precipitation Trends and Comparison with Temperature

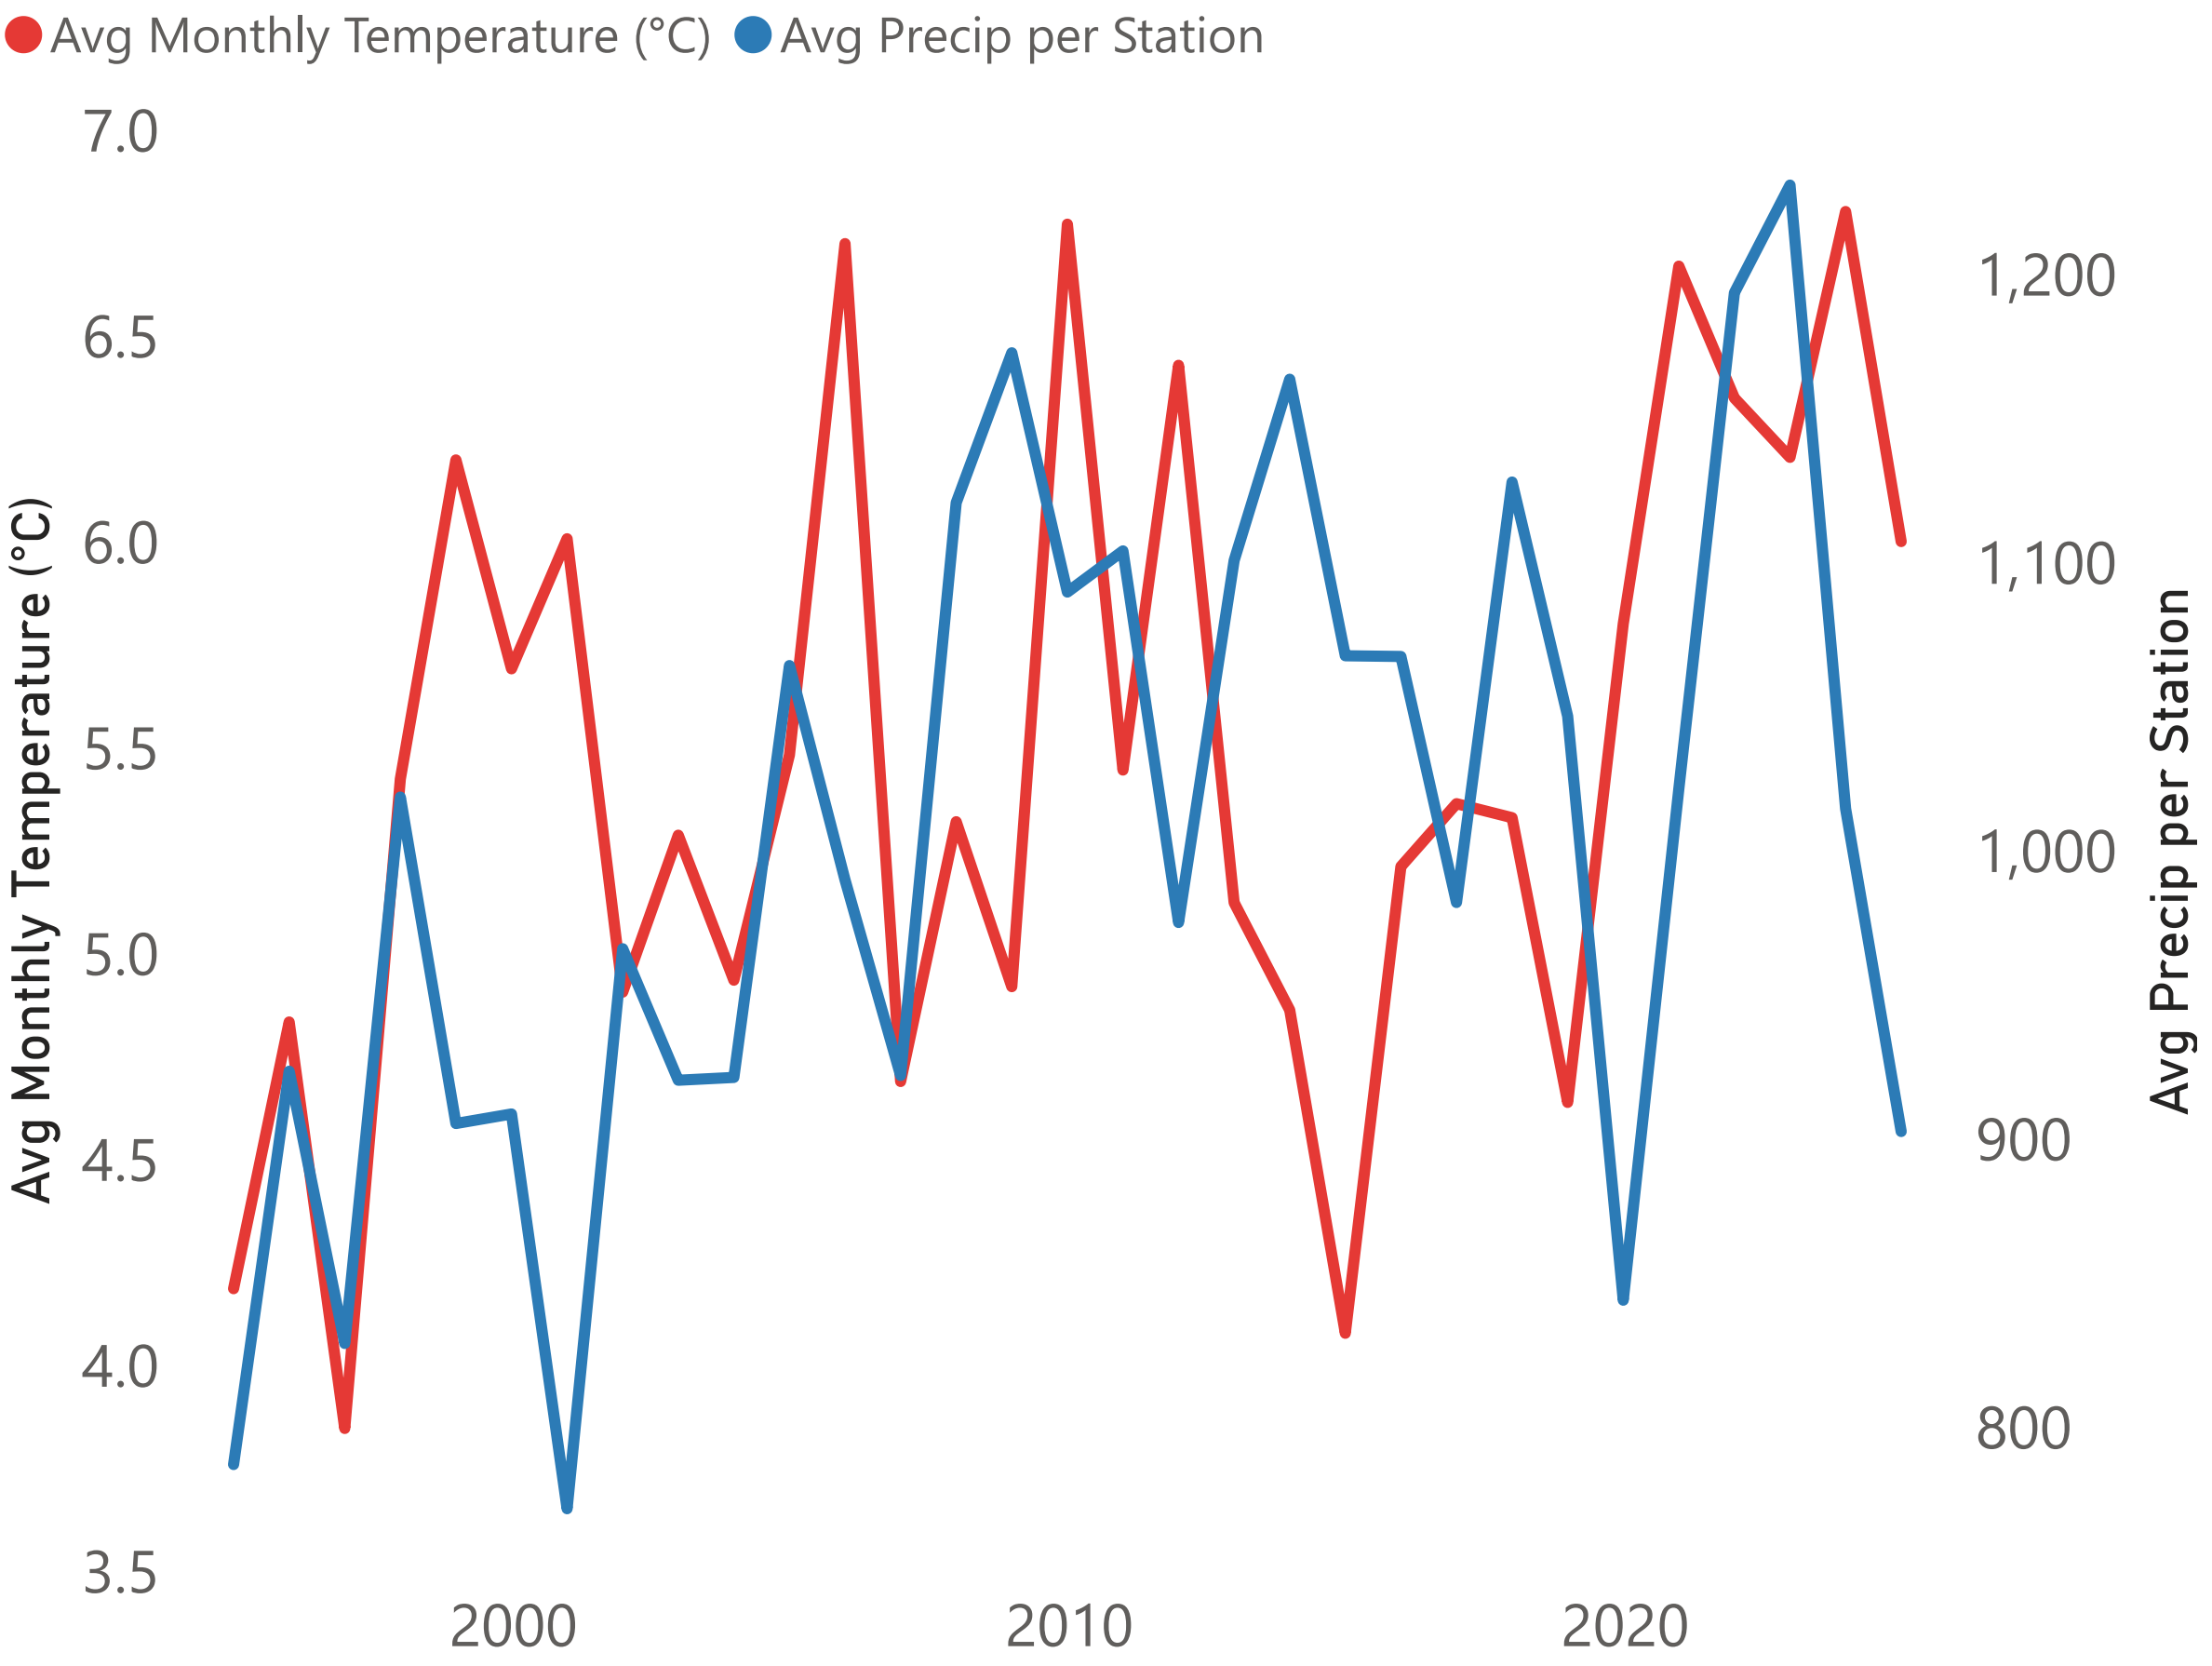

Precipitation Trend Over Time

Overall increase in precipitation over time

Temperature vs Precipitation

Annual comparison of temperature and precipitation trends

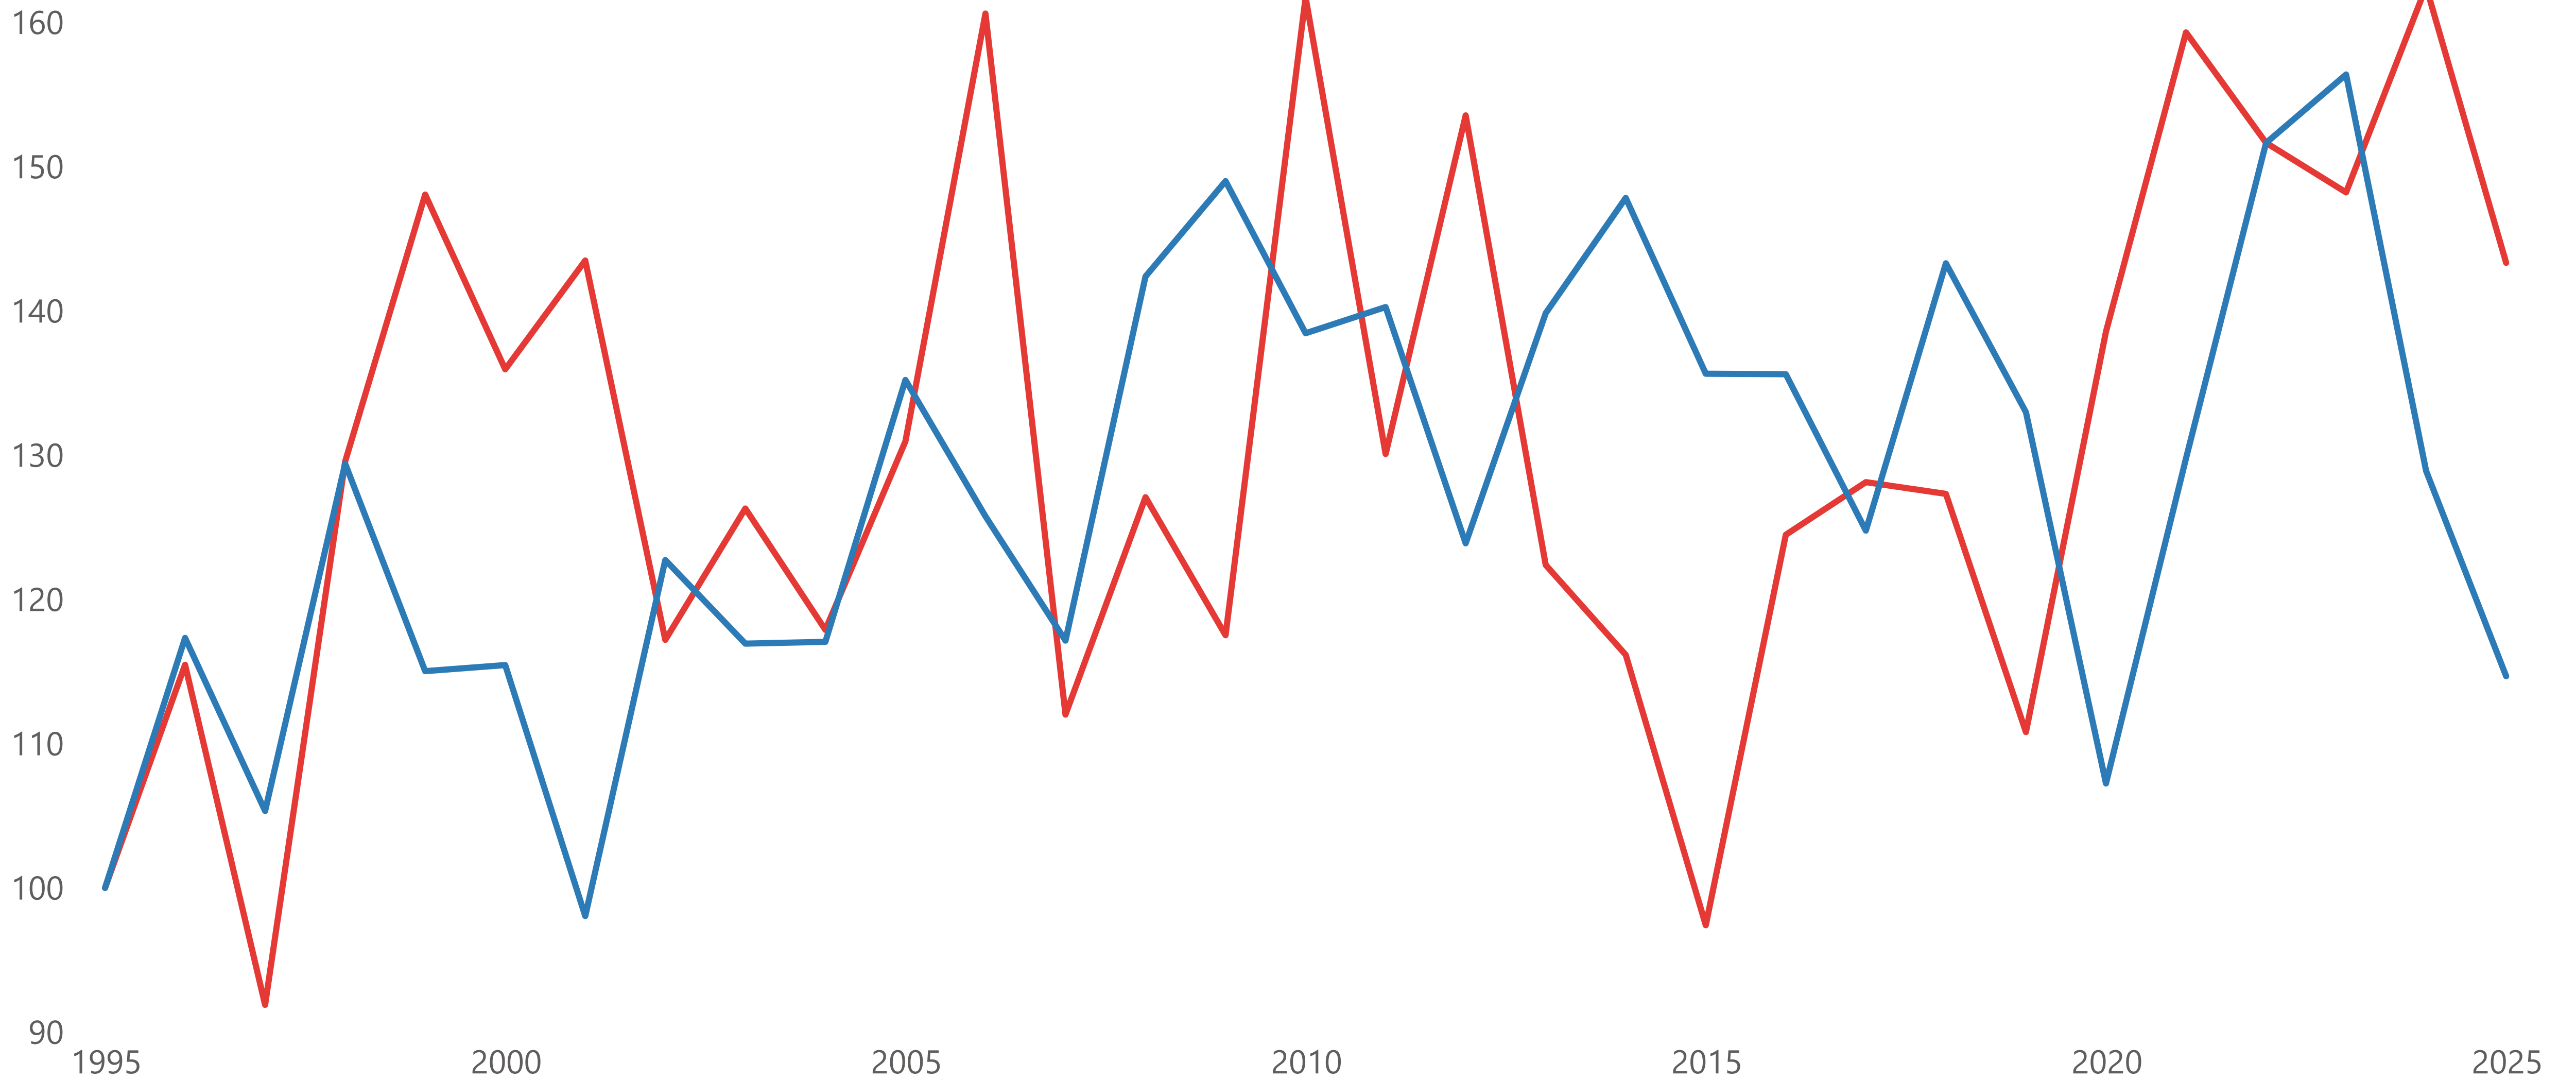

Comparing Relative Changes in Temperature and Precipitation

Similar long-term trends, but inconsistent year-to-year patterns

0.77

Correlation (long-term trend)

● Temp Index ● Precip Index

Extreme Events and Regional Differences

59K

Total Extreme Events

35K

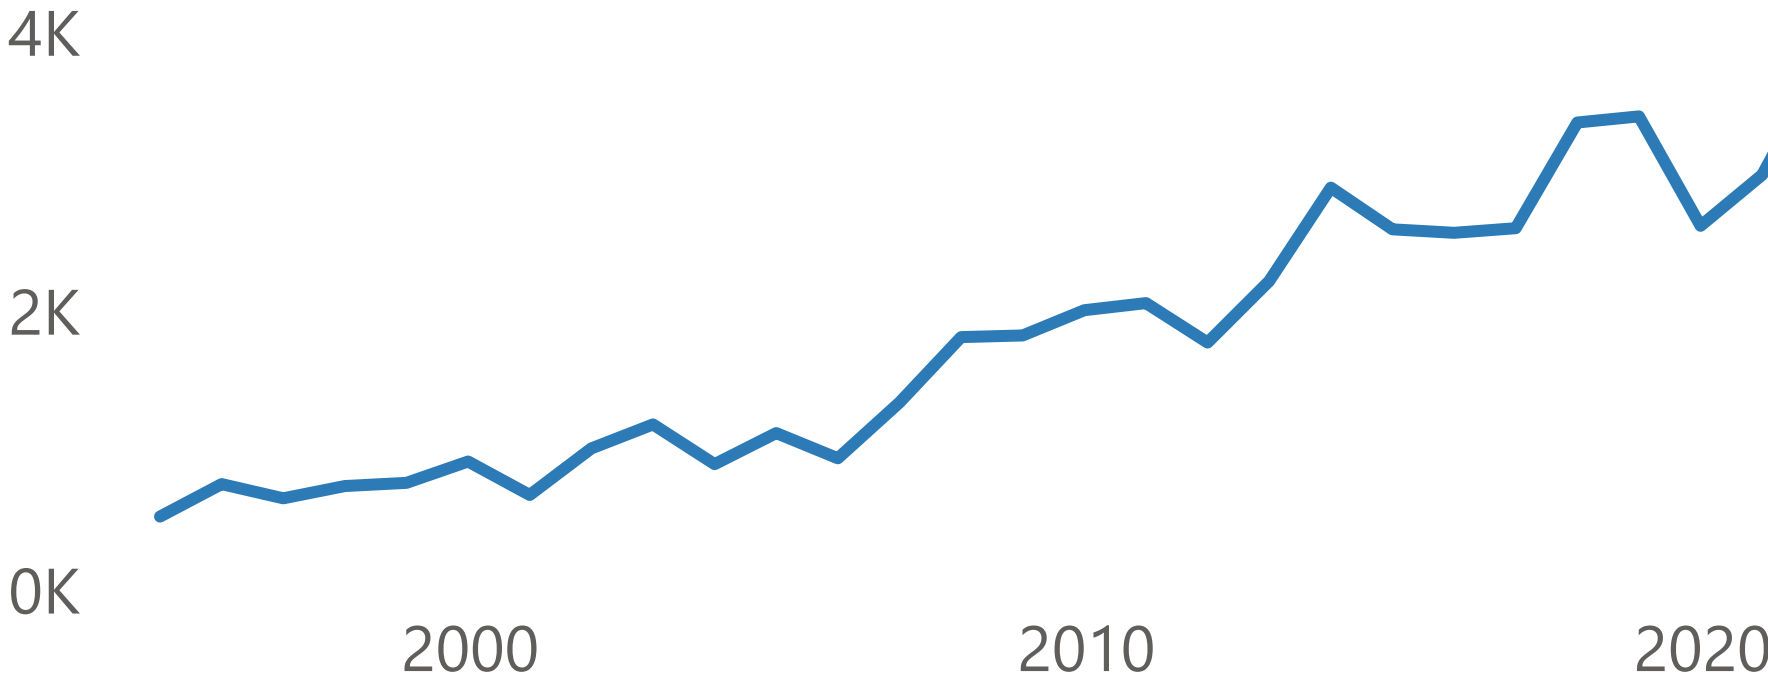

Extreme Precipitation Events

24K

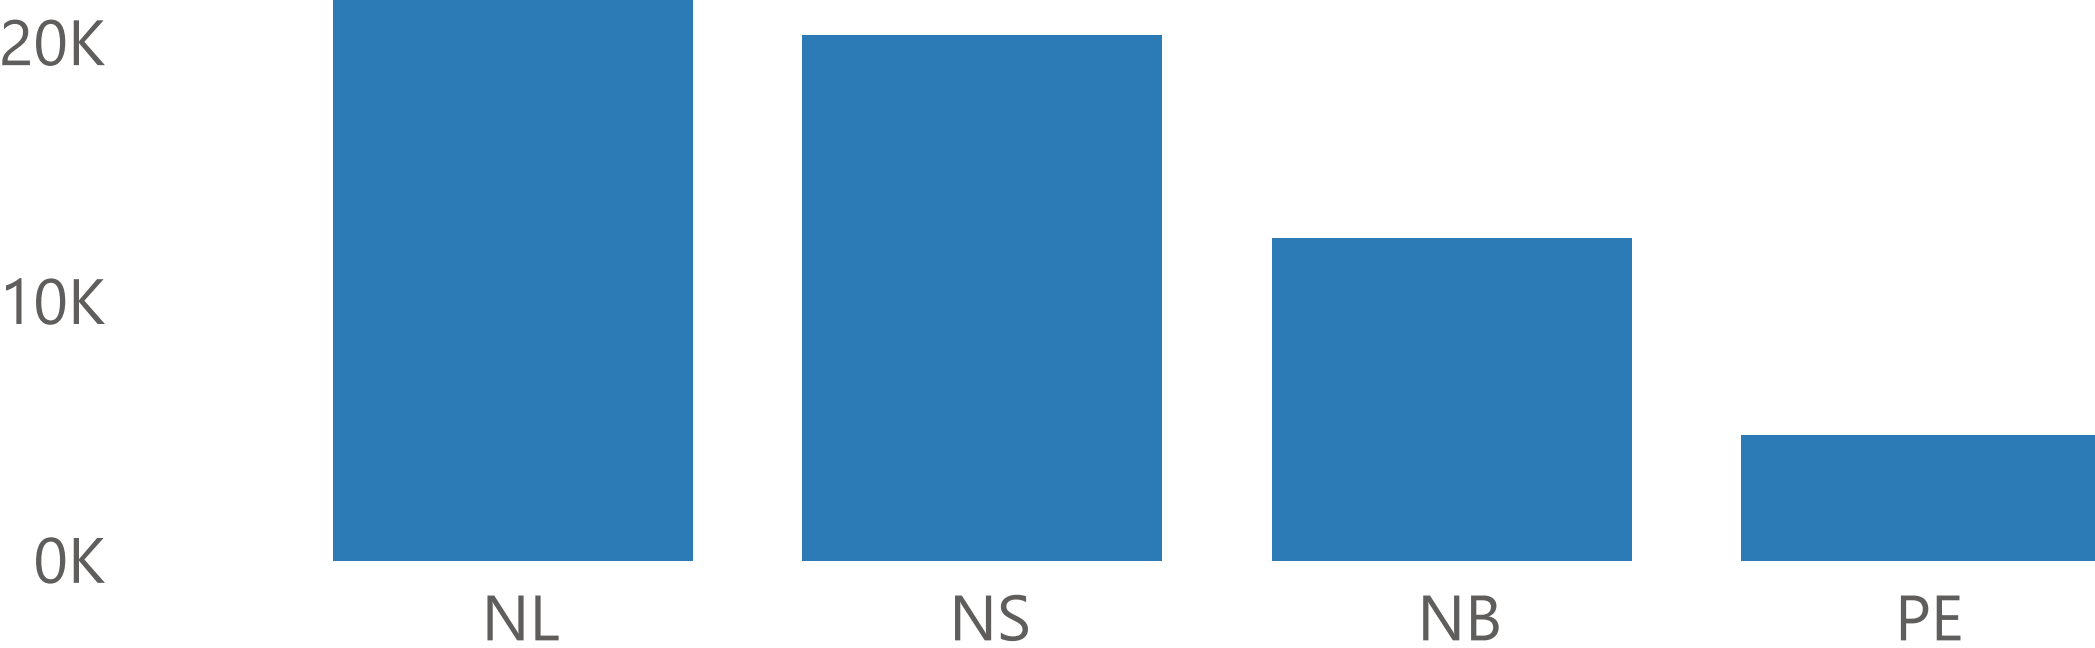

Extreme Wind Events

Total Extreme Events by Year

Sharp increase after 2010

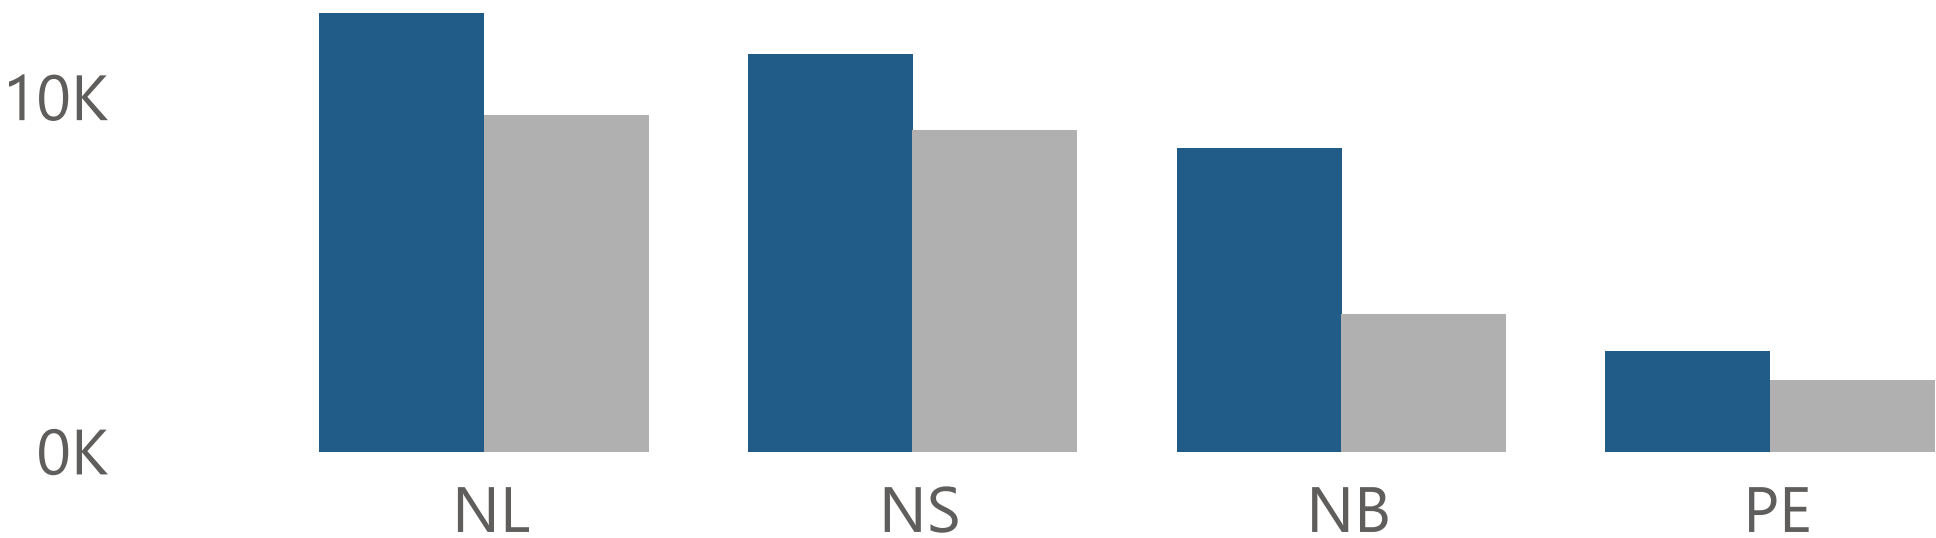

Extreme Events by Province

- NB
- NL
- NS
- PE

Extreme Events by Type

EventType ● Heavy Precipitation ● Extreme Wind

Temperature trends do not translate uniformly into precipitation and extreme events

Province	Temperature Trend	Precipitation	Extreme Events	GHG Trend	Consistency
PE	High	Low	Low	Stable	No clear relation
NS	Moderate	High	High	Decreasing	No clear relation
NL	Moderate	Medium-High	High	Decreasing	No clear relation
NB	Low-moderate	Medium	Moderate	Decreasing	No clear relation
